 **CPD accredited**

About this webinar

This webinar is a unique opportunity to understand how cardiac surgery was managed during the COVID-19 crisis in both the UK and the USA. Two expert presenters will discuss their experiences managing cardiac patients who required emergency cardiac surgery during the pandemic and how processes have changed within that time.

Meeting topics include:

- Current best practice to manage cardiac patients requiring urgent surgery in the COVID-19 crisis
- Evolution of the cardiac patient preparation for surgery in pre COVID-19 and post COVID-19 era
- Understanding the role of the heart team in achieving best outcome for cardiac surgical patients

An interactive Q&A session will be held after the presentations.

Key Speakers

Dr John Doty

Consultant Cardiac Surgeon, Intermountain Hospital, Utah

Mr Alex Shipolini
