<b>Trust</b>	University Hospitals Sussex NHS Foundation Trust (East) - formerly Brighton and Sussex University Hospitals NHS Trust
<b>Site</b>	Royal Sussex County Hospital
<b>Trainee Information System (TIS) Post Code</b> (and local post number if known)	KSS/RXH01/004/F1/005 KSS/RXH01/004/F1/006 KSS/RXH01/004/F1/007 KSS/RXH01/004/F1/008
<b>Placement details</b> (i.e. the specialty and sub-specialty)	General Internal Medicine – with Respiratory Medicine
<b>Department</b>	Respiratory
<b>Type of work to expect and learning opportunities</b>	<p>General Medicine with a Respiratory focus. Ward management of admitted patients. Investigation and treatment of acutely unwell patients. Chronic disease management. Opportunity to learn practical procedures and formal protected teaching once a week.</p> <p>All F1 Doctors in hospital posts will generally be ward based during the 'normal' working day and expected to deliver the daily medical care of all the patients on their ward irrespective of specialty. All tasks covered by e portfolio core competencies.</p> <p>The overall educational objectives of the F1 year are to provide the trainee with the knowledge, skills and attitudes to be able to:</p> <ul style="list-style-type: none"> <li>• Take a history and examine a patient</li> <li>• Identify and synthesise problems</li> <li>• Prescribe safely</li> <li>• Keep an accurate and relevant medical record</li> <li>• Manage time and clinical priorities effectively</li> <li>• Communicate effectively with patients, relatives and colleagues</li> <li>• Use evidence, guidelines and audit to benefit patient care</li> <li>• Act in a professional manner at all times</li> <li>• Cope with ethical and legal issues which occur during the management of patients with general medical problems.</li> <li>• Educate patients effectively</li> <li>• Become life-long learners and teachers</li> </ul>
<b>Where the placement is based</b>	Royal Sussex County Hospital
<b>Clinical supervisor(s) for the placement</b>	Dr Katie Hurt, Dr Sabine Hippolyte, or another consultant in the Respiratory Department.

<b>Main duties of the placement</b>	<p>Jobs include writing in the notes during ward rounds, prescribing, drug chart and TTO write-ups, ensuring all investigations and requests are up to date. Whilst on-call - clerking acute medical admissions / ward cover.</p> <p>This post will include out-of-hours and weekend hours as part of the wider Medicine team. Typical work involved during these shifts may include clerking in A&amp;E, clerking for the medical on-call team, or on the acute assessment ward/frailty unit. As well as providing our patients with the care they need at the weekend they are of great educational benefit as these shifts will involve looking after newly admitted patients (with appropriate supervision).</p>
<b>Typical working pattern in this placement</b> (e.g. ward rounds, clinics, theatre sessions)	<p>Routine working day is 8am – 5pm.</p> <p>Out of hours wards shifts are based on respiratory wards at RSCH. Out of hours clerking shift will be based in the acute floor (ED/AMU)</p> <p>Shifts are managed on Health Rota, an online based rota that allow swaps, leave to be allocated in advance and with equity.</p> <p>Please note the above may be subject to change, further details will be in your work schedule.</p>
<b>Local education provider (LEP)/ employer information</b>	<p>UHSussex (East), formerly known as Brighton &amp; Sussex University Hospitals, is based across two main sites:</p> <ul style="list-style-type: none"> <li>• Royal Sussex County Hospital, in Brighton</li> <li>• Princess Royal Hospital, in Haywards Heath</li> </ul> <p>The Brighton campus includes the Royal Alexandra Children's Hospital and the Sussex Eye Hospital. We provide district general hospital services to our local populations in and around the Brighton and Hove, Mid Sussex and the western part of East Sussex, and more specialised and tertiary services for patients across Sussex and the south east of England.</p> <p>Both hospitals provide many of the same acute services for their local populations. In addition, the Princess Royal is our centre for elective surgery and the Royal Sussex County Hospital is our centre for emergency and tertiary care. Our specialised and tertiary services include neurosciences, arterial vascular surgery, neonatal, paediatrics, cardiac, cancer, renal, infectious diseases and HIV medicine. We are also the major trauma centre for Sussex and the South East.</p> <p>We treat over three quarters of a million patients each year. Working as one hospital across two sites, and playing to the strengths of both, gives us the flexibility to develop services which meet the needs of our patients at different stages of their treatment and care.</p>

\*It is important to note that this description is a typical example of the placement and may be subject to change.

## Foundation Programme Individual Placement Descriptor\*

<b>Trust</b>	University Hospitals Sussex NHS Foundation Trust (East) - formerly Brighton and Sussex University Hospitals NHS Trust
<b>Site</b>	Royal Sussex County Hospital – post may also include work at other sites.
<b>Trainee Information System (TIS) Post Code</b> (and local post number if known)	KSS/RXH01/040/F1/001 KSS/RXH01/040/F1/002
<b>Placement details</b> (i.e. the specialty and sub-specialty)	Gynaecology-Oncology
<b>Department</b>	Obstetrics and Gynaecology
<b>Type of work to expect and learning opportunities</b>	<p>This post provides an excellent opportunity in a closely supervised setting to gain experience in the management of both emergency and elective gynaecological problems. Mainly post-op management of gynae-oncology patients. Opportunities for acute clerking of patients in gynaecology assessment unit and assisting in gynaecology theatres.</p> <p>Alternate weeks are spent doing ward work and in the other week some operating list assistance and the opportunity to attend breast, antenatal or early pregnancy clinics as supernumerary. This would therefore be an ideal post for those considering O&amp;G as a career, but equally an important basic grounding in gynaecology for those considering primary care or a surgical specialty.</p>
<b>Where the placement is based</b>	Gynaecology ward The Gynae Cancer Centre
<b>Clinical supervisor(s) for the placement</b>	Mr Peter Larsen-Disney or other consultant.
<b>Main duties of the placement</b>	The gynaecology ward unit is situated on Level 11 of the tower block and, consists of a 9 bed ward, a Gynae Assessment Unit and an Early Pregnancy Assessment Clinic. There is a dedicated Outpatients Department and Colposcopy Unit within the hospital. The Gynae Cancer Centre for Sussex is located at the Royal Sussex County Hospital and many of the elective inpatients on the ward are Gynae-Oncology patients. Gynae Oncology surgical patients are operated in the main theatre suite at RSCH and Gynaecological emergencies are also managed through the RSCH whilst elective benign gynaecological patients tend to be operated on at

	<p>PRH or Lewes hospitals.</p> <p>All F1 Doctors in hospital posts will generally be ward based during the 'normal' working day and expected to deliver the daily medical care of all the patients on their ward irrespective of specialty. All tasks covered by e portfolio core competencies.</p> <p>The overall educational objectives of the F1 year are to provide the trainee with the knowledge, skills and attitudes to be able to:</p> <ul style="list-style-type: none"> <li>• Take a history and examine a patient</li> <li>• Identify and synthesise problems</li> <li>• Prescribe safely</li> <li>• Keep an accurate and relevant medical record</li> <li>• Manage time and clinical priorities effectively</li> <li>• Communicate effectively with patients, relatives and colleagues</li> <li>• Use evidence, guidelines and audit to benefit patient care</li> <li>• Act in a professional manner at all times</li> <li>• Cope with ethical and legal issues which occur during the management of patients with general medical problems.</li> <li>• Educate patients effectively</li> <li>• Become life-long learners and teachers</li> </ul>
<p><b>Typical working pattern in this placement</b> (e.g. ward rounds, clinics, theatre sessions)</p>	<p>Alternate weeks are spent doing ward work and in the other week some operating list assistance and the opportunity to attend breast, antenatal or early pregnancy clinics as supernumerary.</p> <p>This post also includes working as part of the weekend medical rota. You will be expected to do a maximum of 1 in 3 weekend shifts on the acute floor (working 08:00-17:00 or 12:00-21:00). You work schedule will include these weekends and allows the appropriate weekend enhancements. Foundation doctors are given two days off in-lieu the week before or after these shifts. The work involved is either clerking in A&amp;E, clerking for the medical on-call team, or on the acute assessment ward/frailty unit. As well as providing our patients with the care they need at the weekend they are of great educational benefit as these shifts will involve looking after newly admitted patients (with appropriate supervision) and therefore keeping acute clinical skills up-to-date.</p>

<b>Trust</b>	University Hospitals Sussex NHS Foundation Trust (East) - formerly Brighton and Sussex University Hospitals NHS Trust
<b>Site</b>	Royal Alex Children's Hospital – at the Royal Sussex County Hospital site, BSUH
<b>Trainee Information System (TIS) Post Code</b> (and local post number if known)	KSS/RXH01/002/F1/002 KSS/RXH01/002/F1/003
<b>Placement details</b> (i.e. the specialty and sub-specialty)	Paediatrics
<b>Department</b>	Paediatrics
<b>Type of work to expect and learning opportunities</b>	<p>The Royal Alexandra Children's Hospital in Brighton provides a comprehensive training experience in general paediatrics, paediatric emergency medicine and some areas of subspecialty paediatrics.</p> <p>There are medical and surgical paediatric inpatient wards, medical and surgical day care units, oncology day care unit, high dependency unit and a dedicated children's emergency department (CED). Foundation doctors will predominantly be based in the ward areas, but there are opportunities to work in CED and to observe out-patient clinics.</p> <p>We work alongside the paediatric surgical unit and the post-holder will be involved in the care of both medical and surgical patients.</p> <p>The paediatric junior rota allows flexibility and fulfils requirements for self-development time. Foundation doctors will be on-call in the ward areas with a registrar, with consultant non-resident on call. There is a second on-call team in the CED, with a consultant resident in the hospital until 10pm, based in CED.</p> <p>The paediatric department receives consistently good feedback on its education programme. In addition to clinical teaching and supervision, there is a paediatric departmental teaching programme which includes weekly simulation sessions.</p>
<b>Where the placement is based</b>	You will be based mainly on the paediatric wards and in the children's emergency department.

<b>Clinical supervisor(s) for the placement</b>	Paediatric Consultant will be assigned as the Clinical Supervisor.
<b>Main duties of the placement</b>	Working as part of the medical in-patient ward team, including participating in ward rounds Providing support for paediatric medical day care unit Experience in CED
<b>Typical working pattern in this placement</b> (e.g. ward rounds, clinics, theatre sessions)	Paediatric in-patient medical ward -daily ward rounds Medical day care unit -daytime support and care of wide range of patients attending for elective procedures Children's Emergency Department -Reviewing patients under close senior supervision Paediatric out-patient clinics -observation, including allied health professionals and subspecialty clinics
<b>Local education provider (LEP)/ employer information</b>	<p>UHSussex (East), formerly known as Brighton &amp; Sussex University Hospitals, is based across two main sites:</p> <ul style="list-style-type: none"> <li>• Royal Sussex County Hospital, in Brighton</li> <li>• Princess Royal Hospital, in Haywards Heath</li> </ul> <p>The Brighton campus includes the Royal Alexandra Children's Hospital and the Sussex Eye Hospital. <p><b>Typical working pattern in this placement</b> (e.g. ward rounds, clinics, theatre sessions)</p>	<p>See above.</p> <p>2 hours per week self-Development time.</p> <p>Please note the above may be subject to change, further details will be in your work schedule.</p> <p>This post also includes working as part of the weekend medical rota. You will be expected to do a maximum of 1 in 3 weekend shifts on the acute floor (working 08:00-17:00 or 12:00-21:00). Your work schedule will include these weekends and allows the appropriate weekend enhancements. Foundation doctors are given two days off in-lieu the week before or after these shifts. The work involved is either clerking in A&amp;E, clerking for the medical on-call team, or on the acute assessment ward/frailty unit. As well as providing our patients with the care they need at the weekend they are of great educational benefit as these shifts will involve looking after newly admitted patients (with appropriate supervision) and therefore keeping acute clinical skills up-to-date.</p> <p>Please note the above may be subject to change, further details will be in your work schedule.</p>
<p><b>Local education provider (LEP)/ employer information</b></p>	<p>UHSussex (East), formerly known as Brighton &amp; Sussex University Hospitals, is based across two main sites:</p> <ul style="list-style-type: none"> <li>• Royal Sussex County Hospital, in Brighton</li> <li>• Princess Royal Hospital, in Haywards Heath</li> </ul> <p>The Brighton campus includes the Royal Alexandra Children's Hospital and the Sussex Eye Hospital. <b>Site</b>	Post will be based at Seaside View, Elm Grove, Brighton <u>or</u> Chailey Heritage, Chailey Also includes ward work at Royal Alexandra Children's Hospital, Brighton.
<b>Trainee Information System (TIS) Post Code</b> (and local post number if known)	KSS/RXH01/031/F2/001 KSS/RXH01/092/F2/001
<b>Placement details</b> (i.e. the specialty and sub-specialty)	Community Paediatrics
<b>Department</b>	Paediatrics
<b>Type of work to expect and learning opportunities</b>	<p>The Seaside View Child Development Centre and Chailey Heritage each host one Foundation doctor at a time for months of their 4 month paediatric placement.</p> <p>Time will also be spent in general paediatrics at the Royal Alexandra Children's Hospital. During their community placement the trainee will be released for attendance at Foundation Teaching and other education, mandatory and statutory training as required by their employer.</p> <p>During the community placement, the trainee will experience a number of specialist clinics and will also work closely with clinic teams, complete letters, forms and referrals, and presenting cases at meetings. The post may also offer experience in neurodevelopmental conditions, including the opportunity to join specialist Autism, genetic, epilepsy and neurology clinics. The clinical supervisor will encourage and support the completion of audits and similar activity.</p> <p>The trainee will gain a working knowledge of community child health services and the interface between community, social and hospital care.</p> <p>During time spent in general paediatrics, there will be hands-on experience with children, including good opportunity to practise paediatric examinations, see common and rare disease, practice cannulation and venepuncture, learn child protection and safe guarding issues, opportunity to learn practical procedures, and formal protected teaching once a week.</p>
<b>Where the placement is based</b>	Placement will be based at Seaside View, Elm Grove, Brighton, or Chailey Heritage, Chailey. Time will also be spent working at the Royal Alexandra Children's Hospital on the paediatric wards or in the children's emergency department.
<b>Clinical supervisor(s) for the placement</b>	Dr Ann White, Dr Vivienne Campbell, Or another community Paediatrician.

<b>Main duties of the placement</b>	<p>See above.</p> <p>On the wards at the Royal Alexandra Children's Hospital the consultant of the week provides close supervision and teaching at the bedside, and leads the daily post take ward rounds. This is enhanced by the fact that all consultants have sub-speciality interests. In the Children's Emergency Department you will have the opportunity to assess and treat children with acute medical conditions and those with minor trauma. You will be supported by an experienced registrar at all times and a Paediatric Consultant is also on-site during evenings and at weekends.</p>
<b>Typical working pattern in this placement</b> (e.g. ward rounds, clinics, theatre sessions)	<p>You will have the opportunity to attend outpatient clinics in community and general paediatrics and also subspecialty clinics run by Brighton Consultant Paediatricians jointly with visiting consultants from other teaching centres. You will be freed up to attend the F2 teaching programme, and are also welcome to attend the paediatric department's teaching sessions held on Monday and Friday lunchtimes. On Tuesday afternoons when the paediatric trainees have their teaching sessions you will cover their duties (and they reciprocate this for your teaching sessions). Please note the above may be subject to change, further details will be in your work schedule.</p>

<b>Trust</b>	University Hospitals Sussex NHS Foundation Trust (East) - formerly Brighton and Sussex University Hospitals NHS Trust
<b>Site</b>	Royal Sussex County Hospital
<b>Trainee Information System (TIS) Post Code</b> (and local post number if known)	KSS/RXH01/035/F2/001
<b>Placement details</b> (i.e. the specialty and sub-specialty)	General (Internal) Medicine – with Acute Medicine
<b>Department</b>	Acute Medicine
<b>Type of work to expect and learning opportunities</b>	<p>Unscheduled acute medicine and elective medical procedures and reviews.</p> <p>F2 builds on the F1 year consolidating the knowledge and skills required to assess and manage the acutely ill patient. The main additional learning priorities for F2 Doctors should be:</p> <ul style="list-style-type: none"> <li>• decision making through communication with patients</li> <li>• team-working and communicating with colleagues understanding consent and explaining risk</li> <li>• managing risk and complaints and learning from them</li> <li>• being aware of ethics and law as part of clinical practice</li> <li>• using evidence in the best interest of patients</li> <li>• understanding how appraisal works to promote lifelong learning and</li> <li>• professional development</li> <li>• taking responsibility for the future of medical care in the UK by teaching others effectively.</li> </ul>
<b>Where the placement is based</b>	AMU / The Dept of Acute Medicine, Royal Sussex County Hospital
<b>Clinical supervisor(s) for the placement</b>	A Consultant in the department will be the Clinical Supervisor.
<b>Main duties of the placement</b>	All work is supervised by a duty acute medical consultant. It includes day to day management of our ambulatory care unit (ACU); day to day management of short stay admissions under the care of the acute medical team and acute medical admission clerking responsibilities. A timetable shares this work load with the ACCS trainee. The F2 is also expected to lead the F1s allocated to the team.

	<p>This post will include out-of-hours and weekend hours as part of the wider Medicine team. Typical work involved during these shifts may include clerking in A&amp;E, clerking for the medical on-call team, or on the acute assessment ward/frailty unit. As well as providing our patients with the care they need at the weekend they are of great educational benefit as these shifts will involve looking after newly admitted patients (with appropriate supervision).</p>
<p><b>Typical working pattern in this placement</b> (e.g. ward rounds, clinics, theatre sessions)</p>	<p>Generally 8am-5pm either on the Acute Medical Unit managing the inpatients and clerking new patients or in ACU assessing new referrals, reviewing patients and performing procedures under direct supervision of a senior.</p> <p>Out of hours clerking shift will be based in the acute floor (ED/AMU)</p> <p>Shifts are managed on Health Rota, an online based rota that allow swaps, leave to be allocated in advance and with equity.</p> <p>Please note the above working pattern may be subject to change, further details will be in your work schedule.</p>
<p><b>Local education provider (LEP)/ employer information</b></p>	<p>UHSussex (East), formerly known as Brighton &amp; Sussex University Hospitals, is based across two main sites:</p> <ul style="list-style-type: none"> <li>• Royal Sussex County Hospital, in Brighton</li> <li>• Princess Royal Hospital, in Haywards Heath</li> </ul> <p>The Brighton campus includes the Royal Alexandra Children's Hospital and the Sussex Eye Hospital. <b>Placement details</b> (i.e. the specialty and sub-specialty)	Neurology
<b>Department</b>	Neurology Medical
<b>Type of work to expect and learning opportunities</b>	The Neurosciences Unit is a fully integrated tertiary Unit based at Hurstwood Park Neurological Centre on the Princess Royal Campus at Haywards Heath. It serves a population of approximately 1.4 million in East and West Sussex and links with acute hospitals in Haywards Heath, Brighton, Crawley, Redhill, Eastbourne, Hastings and Worthing. The unit provides a full adult Neurosurgical and Neurological service including assessment, advice, elective and emergency admissions. The Unit has a strong commitment to training.
<b>Where the placement is based</b>	Hurstwood Park Neurological Centre on the Princess Royal Campus at Haywards Heath.
<b>Clinical supervisor(s) for the placement</b>	A Consultant in the department will be the Clinical Supervisor.
<b>Main duties of the placement</b>	<p>There are 6 full time Consultant Neurosurgeons covering a range of general and specialist areas. The neurosurgical specialist registrars rotate with sister units at St Georges and Kings College Hospitals. Consultant Neurologists number 14 in total and provide local (in their host Acute Hospital) OP and ward referral services and all have access to in-patient beds at Hurstwood Park. They are supported by a range of Nurse Specialists in Acquired Brain Injury, Epilepsy, MS and PD. The Neurophysiology Unit provides a full range of EEGs, EMGs and EPs. Satellite EMG and EEG services are provided in Shoreham and an emergency mobile EEG service is available.</p> <p>Please note, this post may also include participating in the on-call Medicine rota at the Princess Royal Hospital.</p>

<p><b>Typical working pattern in this placement</b> (e.g. ward rounds, clinics, theatre sessions)</p>	<p>Facilities at Hurstwood Park include neurosurgical (22 beds) and neurology wards (18 beds), a 6 bedded neuro-ITU/HDU, twin dedicated neurosurgical theatres (opened in April 2000), neurophysiology department, neuroradiology department and outpatient suites. The neuroITU capacity has recently been given clearance to expand further. Each morning there is a teaching neurosurgical/neuroradiology conference in order to review referrals during the preceding day. In addition there is an academic afternoon on Thursdays which includes neuropathology, neuroradiology, visiting speakers and clinical presentations. There are regular teaching sessions involving medical students from the Medical School.</p>

## Foundation Programme Individual Placement Descriptor\*

<b>Trust</b>	University Hospitals Sussex NHS Foundation Trust (East) - formerly Brighton and Sussex University Hospitals NHS Trust
<b>Site</b>	Royal Alexandra Children's Hospital
<b>Trainee Information System (TIS) Post Code</b> (and local post number if known)	KSS/RXH01/022/F2/001
<b>Placement details</b> (i.e. the specialty and sub-specialty)	Paediatric Surgery
<b>Department</b>	Paediatric Surgery
<b>Type of work to expect and learning opportunities</b>	Each year, around 2000 general surgical operations are undertaken. From these figures, approximately 40% are emergency admissions and 60% are planned operations. A wide range of surgery is performed covering gastro-intestinal, urology and general paediatric and neonatal surgery, including endoscopy and laparoscopy. Also, ENT, maxillo-facial, eye surgery and orthopaedics are undertaken in the hospital.
<b>Where the placement is based</b>	The Royal Alexandra Children's Hospital in Brighton.
<b>Clinical supervisor(s) for the placement</b>	A Consultant in the department will be the Clinical Supervisor.
<b>Main duties of the placement</b>	The Foundation Doctor will be expected to assist the Consultants in the pre and post-operative care of children requiring day case and elective surgery. They will attend the handover and morning ward round when on duty and manage the ward tasks resulting from this. There will be opportunity to attend outpatients' clinics and operating lists, with the consultant. In CED, the Foundation Doctor will be expected to see children referred to the surgical team, in conjunction with the appropriate middle grade. This will enable learning of the management of the sick surgical child.
<b>Typical working pattern in this placement</b> (e.g. ward rounds, clinics, theatre sessions)	There is a regular teaching program which the F2 will be able to attend.
<b>Local education provider (LEP)/ employer information</b>	UHSussex (East), formerly known as Brighton & Sussex University Hospitals, is based across two main sites: <ul style="list-style-type: none"> <li>• Royal Sussex County Hospital, in Brighton</li> <li>• Princess Royal Hospital, in Haywards Heath</li> </ul> The Brighton campus includes the Royal Alexandra Children's Hospital and the Sussex Eye Hospital.

<b>Placement details</b> (i.e. the specialty and sub-specialty)	Trauma & Orthopaedics
<b>Department</b>	Trauma and Orthopaedic Surgery
<b>Type of work to expect and learning opportunities</b>	<p>As part of a reconfiguration of services which followed the public consultation 'Best Care Best Place' the orthopaedic departments at the Princess Royal Hospital and The Royal Sussex County Hospital were merged in June 2005. This merger encompassed the move of all trauma surgery to the RSCH site and that of elective surgery to the PRH site. A full A&amp;E service is provided at the Princess Royal Hospital, with all major trauma and all trauma cases requiring surgery being transferred to Brighton.</p> <p>At the Royal Sussex County Hospital there is a polytrauma ward and an orthopaedic ward, (L8A East &amp; L11West) and a small day case trauma area.</p> <p>The outpatients department is situated on the same floor as the theatres and A&amp;E Department and provides elective and trauma clinics and a technician led casting service. Two trauma lists run all day on weekdays and a single one at weekends and Bank Holidays. The Trust employs a trauma co-ordinator, who works closely with Consultants, to manage the flow of patients into trauma beds.</p>
<b>Where the placement is based</b>	Royal Sussex County Hospital & Princess Royal Hospital
<b>Clinical supervisor(s) for the placement</b>	A Consultant in the department will be the Clinical Supervisor.
<b>Main duties of the placement</b>	All simple elective patients are currently treated at the Treatment Centre in the grounds of the Princess Royal Hospital (Sussex Orthopaedic

	<p>Treatment Centre, SOTC). Anaesthetically complex elective patients are treated at the Princess Royal Hospital. There is one ward at the SOTC which you are not responsible for. There are two wards in the Princess Royal Hospital. Twineham ward houses largely fractured neck of femur patients who are rehabilitating. Albourne wards takes the elective patients.. There are two laminar flow theatres at PRH. Outpatient clinics are situated on the ground floor and provide the same service as at the RSCH site. Changes are also currently being planned in outpatient services. Community-based assessment teams with Consultant involvement are being set up to provide a multidisciplinary assessment and triage service, with patients requiring surgery being referred directly to the Treatment Centre.</p>
<p><b>Typical working pattern in this placement</b> (e.g. ward rounds, clinics, theatre sessions)</p>	<p>Trauma lists run all day on weekdays and a single one at weekends and Bank Holidays. ## Foundation Programme Individual Placement Descriptor\*

<b>Trust</b>	University Hospitals Sussex NHS Foundation Trust (East) - formerly Brighton and Sussex University Hospitals NHS Trust
<b>Site</b>	Brighton & Sussex Medical School BSMS, Mayfield House, Falmer, University of Brighton Campus
<b>Trainee Information System (TIS) Post Code</b> (and local post number if known)	KSS/RXH01/666/F2/008
<b>Placement details</b> (i.e. the specialty and sub-specialty)	Academic (General Practice)
<b>Department</b>	Academic (General Practice)
<b>Type of work to expect and learning opportunities</b>	<p>Research: The F2 will have the opportunity to contribute to an existing research project, and to develop a discrete aspect of it that they can then present at a national Primary Care Conference (Society of Academic Primary Care or RCGP). The F2 doctors will also have access to the research courses and training offered by both the Universities of Brighton and Sussex.</p> <p>Teaching: The opportunities for participating in teaching and student assessment will vary depending on the phase in the academic cycle, but all F2s will have the opportunity for some formal medical education training and involvement in the General Practice or clinical practice curriculum.</p> <p>The Division has a weekly academic seminar with speakers from the division, our parent universities and externally. A regular Research in Progress meeting provides a forum for emerging ideas and interpretation of recently collected data.</p>
<b>Where the placement is based</b>	The academic GP attachment is based in the Division of Public Health & Primary Care at Brighton & Sussex Medical School. The attachment will provide an opportunity to gain experience of the discipline of Academic General Practice through research and teaching activities.
<b>Clinical supervisor(s) for the placement</b>	Dr Max Cooper, Senior Lecturer in Primary Care
<b>Main duties of the placement</b>	We are a multi-disciplinary department (medicine, social science, epidemiology, psychology, public health) and have a large portfolio of health services research. Our particular research expertise is in pragmatic trial design, qualitative methods and working with large data sets. The clinical foci of our current primary care research are sexual health, allergy,

	<p>cancer, dementia and the electronic patient record.</p> <p>Recent projects that F2s have undertaken have been very varied and included an evaluation of the quality of referral letters, doctors' perceptions of intimate examination, systematic review of self-sampling for STIs, portrayal of doctors in children's literature.</p>
<p><b>Typical working pattern in this placement</b> (e.g. ward rounds, clinics, theatre sessions)</p>	<p>Academic Placement.</p> <p>Please note, your academic block may also include working as part of the BSUH weekend medical rota. You will be expected to do a maximum of 1 in 3 weekend shifts on the acute floor (working 08:00-17:00 or 12:00-21:00). Your work schedule will include these weekends and allows the appropriate weekend enhancements. Foundation doctors are given two days off in-lieu the week before or after these shifts. The work involved is either clerking in A&amp;E, clerking for the medical on-call team, or on the acute assessment ward/frailty unit. As well as providing our patients with the care they need at the weekend they are of great educational benefit as these shifts will involve looking after newly admitted patients (with appropriate supervision) and therefore keeping acute clinical skills up-to-date.</p>
<p><b>Local education provider (LEP)/ employer information</b></p>	<p>UHSussex (East), formerly known as Brighton &amp; Sussex University Hospitals, is based across two main sites:</p> <ul style="list-style-type: none"> <li>• Royal Sussex County Hospital, in Brighton</li> <li>• Princess Royal Hospital, in Haywards Heath</li> </ul> <p>The Brighton campus includes the Royal Alexandra Children's Hospital and the Sussex Eye Hospital. ## Foundation Programme Individual Placement Descriptor\*

<b>Trust</b>	University Hospitals Sussex NHS Foundation Trust (East) - formerly Brighton and Sussex University Hospitals NHS Trust
<b>Site</b>	Royal Sussex County Hospital
<b>Trainee Information System (TIS) Post Code</b> (and local post number if known)	KSS/RXH01/666/F2/001 (Rotation 2)
<b>Placement details</b> (i.e. the specialty and sub-specialty)	Academic (Haematology)
<b>Department</b>	Academic (Haematology)
<b>Type of work to expect and learning opportunities</b>	Haematology research in Brighton focuses primarily on understanding the biology of blood cancer, notably acute myeloid leukaemia, chronic lymphoid leukaemia and multiple myeloma, with a view to exploring new therapeutic strategies in these disease areas. We are particularly interested in understanding the molecular mechanisms of disease in acute myeloid leukaemia with the aim of identifying novel targeted strategies in order to improve treatment outcomes.
<b>Where the placement is based</b>	Medical Research Building, Sussex University, Falmer
<b>Clinical supervisor(s) for the placement</b>	Dr Timothy Chevassut, Reader and Director of Academic Training
<b>Main duties of the placement</b>	<p>Our laboratory is based at the Medical Research Building on the Sussex University campus at Falmer which has state-of-the-art facilities. We maintain a tissue bank of patient blood and bone marrow samples and haematological cell lines and have published widely on our research. We have a number of collaborations with various other investigators in Brighton and elsewhere in the UK working in areas of epigenetics, signal transduction, genomic instability, DNA methylation, drug discovery, next generation sequencing.</p> <p>Dr Chevassut also runs several clinical trials in AML and myeloma through the Clinical Investigation Research Unit at the Royal Sussex County Hospital, including phase I and II studies. There are six other haematology consultants who collectively manage a busy level 2 haematology service and laboratory including flow cytometry.</p> <p>BSMS has recently recruited Professor Chris Pepper and Andrea Pepper to Brighton who have a strong track record in research on chronic lymphocytic leukaemia with a particular focus on studying the lymph node microenvironment and telomere biology in blood cancers. Collaborative research opportunities are encouraged.</p>

	<p>Interested candidates are encouraged to look at the website or contact Dr Chevassut for further details. Previous experience with laboratory techniques and a good basic knowledge of molecular biology would be helpful.</p>
<p><b>Typical working pattern in this placement</b> (e.g. ward rounds, clinics, theatre sessions)</p>	<p>The trainee will have one clinical block in haematology and additional ad hoc clinic experience could be arranged but the primary focus will be on academic research.</p> <p>Please note, your academic block may also include working as part of the BSUH weekend medical rota. You will be expected to do a maximum of 1 in 3 weekend shifts on the acute floor (working 08:00-17:00 or 12:00-21:00). ## Foundation Programme Individual Placement Descriptor\*

<b>Trust</b>	University Hospitals Sussex NHS Foundation Trust (East) - formerly Brighton and Sussex University Hospitals NHS Trust
<b>Site</b>	Royal Sussex County Hospital
<b>Trainee Information System (TIS) Post Code</b> (and local post number if known)	KSS/RXH01/666/F2/003 (Rotation 1)
<b>Placement details</b> (i.e. the specialty and sub-specialty)	Academic (Intensive Care)
<b>Department</b>	Academic (Intensive Care)
<b>Type of work to expect and learning opportunities</b>	The Intensive Care Unit has regular weekly teaching afternoon every Tuesday and the AFP trainee is encouraged to attend these meetings. An academic training course is also made available via the Clinical Investigation Research Unit (CIRU) which the candidate is encouraged to attend.
<b>Where the placement is based</b>	Royal Sussex County Hospital
<b>Clinical supervisor(s) for the placement</b>	Dr Owen Boyd, Consultant in Intensive Care Medicine and Anaesthesia
<b>Main duties of the placement</b>	<p>This will be tailored to the individual. Most projects are clinically based or involve data collection and analysis. The most successful approach for our AFP trainees is to develop a specific project within one of these areas considering the trainees interests and aptitudes; and also integrating work into the current trial and research work ongoing at the time. The Intensive Care Research portfolio is clinically and practically based with research frequently directly impacting on patient care.</p> <p>The candidates also have the opportunity to be trained in various research techniques to run clinical trials. Training in good clinical practice guidelines, use of statistical packages including SPSS, training in the use of Endnote and other research packages are also part of the process. We also have adequate time to present work to varying size groups and obtain feedback.</p> <p>The Intensive Care Unit is an active participant of the Clinical Research Network in Kent, Surrey and Sussex, and the AFP trainee would be encouraged to learn more about how Research is organised in the NHS by attendance at, and review of, the CRN management and processes.</p>
<b>Typical working pattern in this placement</b> (e.g. ward rounds, clinics, theatre sessions)	The AFP trainee will be able to join in with the work of the Intensive Care Unit as time allows and will gain valuable insight into the formulation and importance of

	<p>research by observing how research can be incorporated into everyday practice. Every day there are 2 major ward rounds and it will be straightforward to integrate into these. The main commitment of the post is of course research activity.</p> <p>Please note, your academic block may also include working as part of the BSUH weekend medical rota. You will be expected to do a maximum of 1 in 3 weekend shifts on the acute floor (working 08:00-17:00 or 12:00-21:00). You work schedule will include these weekends and allows the appropriate weekend enhancements. Foundation doctors are given two days off in-lieu the week before or after these shifts. Both hospitals provide many of the same acute services for their local populations. In addition, the Princess Royal is our centre for elective surgery and the Royal Sussex County Hospital is our centre for emergency and tertiary care. Our specialised and tertiary services include neurosciences, arterial vascular surgery, neonatal, paediatrics, cardiac, cancer, renal, infectious diseases and HIV medicine. We are also the major trauma centre for Sussex and the South East. We treat over three quarters of a million patients each year. Working as one hospital across two sites, and playing to the strengths of both, gives us the flexibility to develop services which meet the needs of our patients at different stages of their treatment and care.</p>

\*It is important to note that this description is a typical example of the placement and may be subject to change.

## Foundation Programme Individual Placement Descriptor\*

<b>Trust</b>	University Hospitals Sussex NHS Foundation Trust (East) - formerly Brighton and Sussex University Hospitals NHS Trust
<b>Site</b>	Royal Sussex County Hospital
<b>Trainee Information System (TIS) Post Code</b> (and local post number if known)	KSS/RXH01/666/F2/001 (Rotation 3)
<b>Placement details</b> (i.e. the specialty and sub-specialty)	Academic (Infectious Diseases)
<b>Department</b>	Academic (Infectious Diseases)
<b>Type of work to expect and learning opportunities</b>	<p>Infectious diseases is a major academic theme at Brighton and Sussex Medical School. Among the clinical academics, Prof Newport is head of the Department of Global Health and Infection at BSMS which supports a number of research projects suitable for FY2 academic trainees offering experience in a range of disciplines (e.g. epidemiology, lab-based genetics and immunology) and topics (global anti-microbial resistance, tuberculosis, HIV, malaria, neglected tropical diseases, non- communicable diseases in low-income settings). BSMS is a Wellcome Trust Centre for Global Health Research and we have good links with centres in Africa (e.g. Zambia, Ethiopia) where previous trainees have undertaken their research projects, subject to Deanery approval.</p> <p>Within this department, Dr Llewelyn works on clinical and immunological assessment of patients with healthcare-associated infections such as <i>Staphylococcus aureus</i> and <i>Clostridium difficile</i>. He is working with the modernising medical microbiology consortium (<a href="http://www.modmedmicro.ac.uk">www.modmedmicro.ac.uk</a>) to use microbial whole genome sequencing to study transmission and pathogenicity of these organisms and with the UK Clinical Infection Research Group to undertake a multicenter Randomised Controlled Trial of rifampicin in the management of <i>S. aureus</i> bacteraemia (<a href="http://www.ukcirg.co.uk">www.ukcirg.co.uk</a>). With Prof Florian Kern at BSMS he is developing the measurement of host immune responses as tools for assessing patients with healthcare associated infections.</p>
<b>Where the placement is based</b>	Royal Sussex County Hospital
<b>Clinical supervisor(s) for the placement</b>	Prof Martin Llewelyn, Prof Melanie Newport
<b>Main duties of the placement</b>	In the past we have found the most successful approach for our AFP trainees is to develop a specific project within one of these areas considering the trainees interests and aptitudes. Such a project may be

	<p>patient focused or lab-based (microbiology, immunology or genetics). The successful appointee should contact Dr Llewelyn or Prof Newport to discuss the post as soon as possible after appointment.</p>
<p><b>Typical working pattern in this placement</b> (e.g. ward rounds, clinics, theatre sessions)</p>	<p>Research placement.</p> <p>Please note, your academic block may also include working as part of the BSUH weekend medical rota. You will be expected to do a maximum of 1 in 3 weekend shifts on the acute floor (working 08:00-17:00 or 12:00-21:00). Your work schedule will include these weekends and allows the appropriate weekend enhancements. Foundation doctors are given two days off in-lieu the week before or after these shifts. The work involved is either clerking in A&amp;E, clerking for the medical on-call team, or on the acute assessment ward/frailty unit. As well as providing our patients with the care they need at the weekend they are of great educational benefit as these shifts will involve looking after newly admitted patients (with appropriate supervision) and therefore keeping acute clinical skills up-to-date.</p>
<p><b>Local education provider (LEP)/ employer information</b></p>	<p>UHSussex (East), formerly known as Brighton &amp; Sussex University Hospitals, is based across two main sites:</p> <ul style="list-style-type: none"> <li>• Royal Sussex County Hospital, in Brighton</li> <li>• Princess Royal Hospital, in Haywards Heath</li> </ul> <p>The Brighton campus includes the Royal Alexandra Children's Hospital and the Sussex Eye Hospital. We provide district general hospital services to our local populations in and around the Brighton and Hove, Mid Sussex and the western part of East Sussex, and more specialised and tertiary services for patients across Sussex and the south east of England. Both hospitals provide many of the same acute services for their local populations. In addition, the Princess Royal is our centre for elective surgery and the Royal Sussex County Hospital is our centre for emergency and tertiary care. Our specialised and tertiary services include neurosciences, arterial vascular surgery, neonatal, paediatrics, cardiac, cancer, renal, infectious diseases and HIV medicine. We are also the major trauma centre for Sussex and the South East. We treat over three quarters of a million patients each year. Working as one hospital across two sites, and playing to the strengths of both, gives us the flexibility to develop services which meet the needs of our patients at different stages of their treatment and care.</p>

## Foundation Programme Individual Placement Descriptor\*

<b>Trust</b>	University Hospitals Sussex NHS Foundation Trust (East) - formerly Brighton and Sussex University Hospitals NHS Trust
<b>Site</b>	Royal Sussex County Hospital
<b>Trainee Information System (TIS) Post Code</b> (and local post number if known)	KSS/RXH01/666/F2/003
<b>Placement details</b> (i.e. the specialty and sub-specialty)	Academic (Paediatrics)
<b>Department</b>	Academic (Paediatrics)
<b>Type of work to expect and learning opportunities</b>	<p>Dr Katy Fidler (senior lecturer) leads research on predictive factors for paediatric infections. She collaborates with academics in London, and with Professor Mukhopadhyay and Dr Heike Rabe (reader) for work on several cohorts (e.g. BREATHE, Go-CHILD). Dr, Christina Jones (lecturer) has a particular interest in behavioural aspects of clinical management of disease and is closely involved with paediatric clinical trials run by the department.</p> <p>The study of gene-environment (including pharmacogenetic) interactions that influence asthma and allergy phenotype in childhood constitutes an important area of investigation. The line of research has resulted in the identification of several novel pathways of likely clinical importance in children's asthma. A number of randomized controlled trials are currently in progress, aiming to translate the findings to clinical practice, as part of the introduction of the principles of personalized medicine to the field of children's asthma and allergy. The foundation year trainee will be encouraged to develop one of these angles of investigation through close working with colleagues already involved in one of these areas of research.</p> <p>A 6 million euro EU FP7 programme grant led by Dr Heike Rabe, Reader, BSMS, explores novel angles for neonatal cardiovascular treatments and there are multiple opportunities for developing a research project working within this programme.</p> <p>There are opportunities for training in research methodology within the two universities (Brighton and Sussex, plus training courses within the Medical School) as appropriate for the research plan for the trainee.</p>
<b>Where the placement is based</b>	Royal Sussex County Hospital

<b>Clinical supervisor(s) for the placement</b>	Prof Somnath Mukopadhyay Dr Katy Fidler, Senior Lecturer in Paediatrics
<b>Main duties of the placement</b>	The clinical training will focus on general paediatrics, although there will be opportunities to initiate the development of a sub-speciality interest of choice, such as respiratory medicine, neonatology, or infectious diseases.
<b>Typical working pattern in this placement</b> (e.g. ward rounds, clinics, theatre sessions)	Research placement. Please note, your academic block may also include working as part of the BSUH weekend medical rota. ## Foundation Programme Individual Placement Descriptor\*

<b>Trust</b>	University Hospitals Sussex NHS Foundation Trust (East) - formerly Brighton and Sussex University Hospitals NHS Trust
<b>Site</b>	Royal Sussex County Hospital
<b>Trainee Information System (TIS) Post Code</b> (and local post number if known)	KSS/RXH01/666/F2/002 (Rotation 1)
<b>Placement details</b> (i.e. the specialty and sub-specialty)	Academic (Rheumatology)
<b>Department</b>	Academic (Rheumatology)
<b>Type of work to expect and learning opportunities</b>	<p>Structure of academic project and the expectations will be agreed during F1 year depending on which project area is selected.</p> <p>Opportunities will be available to gain skills in teaching and learning through medical student teaching and attendance at teaching support courses.</p>
<b>Where the placement is based</b>	Royal Sussex County Hospital
<b>Clinical supervisor(s) for the placement</b>	<p>Dr Jessica Eccles, Clinical Senior Lecturer and MQ Arthritis Research UK Fellow</p> <p>Dr Charlotte Thompson, Senior Lecturer in Rheumatology</p>
<b>Main duties of the placement</b>	<p>Dr Sandra Sacre's work focuses on the role of toll-like receptors, a family of innate immune receptors that have an important function in the recognition of viruses and bacteria. These receptors are of particular interest in RA as they can also generate inflammation in response to damage associated molecules often found at sites of chronic inflammation and tissue damage. Her work has revealed a potential functional role for a subset of these receptors in the maintenance of inflammation in the joint tissue of RA patients and has been the focus of several patent applications. The long term goal of this research is to aid the development of new therapies.</p> <p>Professor Davies runs a weekly complex connective tissue disease clinic and is Principal Investigator in several clinical trials of novel biologic agents in the treatment of lupus and other autoimmune/autoinflammatory diseases. In addition he is leading research using imaging to characterise rheumatic disease.</p> <p>Professor Davies also has a clinical interest in fibromyalgia, and hypermobility. He is working closely with Dr Jess Eccles and Professor Hugo Critchley from the Psychiatry department within BSMS exploring the</p>

	<p>link between fibromyalgia, anxiety, hypermobility and postural orthostatic tachycardia syndrome (POTS). This is a major growth area in rheumatology, and a fellow would have a unique opportunity to participate actively in both the recruitment of patients, and delivery of this work.</p>
<p><b>Typical working pattern in this placement</b> (e.g. ward rounds, clinics, theatre sessions)</p>	<p>1 rheumatology clinic per week, supervised.</p> <p>Please note, your academic block may also include working as part of the BSUH weekend medical rota. You will be expected to do a maximum of 1 in 3 weekend shifts on the acute floor (working 08:00-17:00 or 12:00-21:00). Your work schedule will include these weekends and allows the appropriate weekend enhancements. Foundation doctors are given two days off in-lieu the week before or after these shifts. The work involved is either clerking in A&amp;E, clerking for the medical on-call team, or on the acute assessment ward/frailty unit. <b>Trust</b>	University Hospitals Sussex NHS Foundation Trust (East) - formerly Brighton and Sussex University Hospitals NHS Trust
<b>Site</b>	Royal Sussex County Hospital
<b>Trainee Information System (TIS) Post Code</b> (and local post number if known)	KSS/RXH01/666/F2/001 (Rotation 1)
<b>Placement details</b> (i.e. the specialty and sub-specialty)	Academic (Stroke and Elderly Care)
<b>Department</b>	Academic (Stroke and Elderly Care)
<b>Type of work to expect and learning opportunities</b>	<p>In the past few years, candidates who have held this post have ended up publishing in international journals, presenting at national and international meetings and have also been successful in obtaining positions for future careers in academic medicine. In addition to the potential to participate in various projects, the candidates have an opportunity to work in a research active environment with excellent infrastructure provided by the Clinical Research Unit of the hospital and a 30-bed stroke unit.</p> <p>The candidates also have the opportunity to be trained in various research techniques to run clinical trials. Training in good clinical practice guidelines, use of statistical packages including SPSS, training in the use of Endnote and other research packages are also part of the process.</p>
<b>Where the placement is based</b>	<p>The unit runs several clinical trials in Stroke Medicine as part of the National Institute of Health Research (NIHR) Stroke research network. The candidates will have the opportunity to be part of these multi-centre trials.</p> <p>The unit is part of the Kent, Surrey and Sussex local comprehensive research network, (LCRN - part of NIHR) for Stroke Research. Professor Rajkumar is the academic lead for the cardiovascular division and stroke in Kent, Surrey and Sussex. The unit is part of a number of multi-centre clinical studies which are on the NIHR portfolio.</p>
<b>Clinical supervisor(s) for the placement</b>	Prof. C. Rajkumar, Chair of Geriatrics and Stroke Medicine, Charles Hunnisett Foundation
<b>Main duties of the placement</b>	Professor C Rajkumar is the Charles Hunnisett Foundation Chair of Geriatrics and Stroke Medicine. His research areas are around cardiovascular laboratory-based research into ageing process of arteries & epidemiology research into hypertension

	<p>&amp; study of risk factors in stroke and post TIA. The potential projects will investigate non-invasive ways of measuring cardiovascular risk factors in patients with stroke, diabetes, renal disease and peripheral vascular disease. These include a number of novel methods for assessing arterial stiffness, the role of sympathetic nervous system activity using 24 hour Holter, various methods for measuring arterial stiffness and ambulatory BP monitoring. The unit is well equipped to handle data and has a track record of publications in high impact journals. It also has a number of international collaborations. Academic trainees have published and presented at international conferences on a number of occasions.</p> <p>The unit is also part of the undergraduate training programme and Professor C Rajkumar is the lead for Stroke Medicine module. The feedback from students for this module has been excellent and the academic trainee will have ample opportunity to be involved in this training module. There will also be opportunities to be involved in undergraduate exams and also various teaching programmes.</p> <p>Clinical teaching mainly during the above ward rounds to 3rd year medical students and teaching in 2 clinics per month.</p>
<b>Typical working pattern in this placement</b> (e.g. ward rounds, clinics, theatre sessions)	<p>Clinical experience with two ward rounds per week and one outpatient clinic per week.</p> <p>Please note, your academic block may also include working as part of the BSUH weekend medical rota. You will be expected to do a maximum of 1 in 3 weekend shifts on the acute floor (working 08:00-17:00 or 12:00-21:00). You work schedule will include these weekends and allows the appropriate weekend enhancements. Foundation doctors are given two days off in-lieu the week before or after these shifts. The work involved is either clerking in A&amp;E, clerking for the medical on-call team, or on the acute assessment ward/frailty unit. **Foundation Programme  
Individual Placement Descriptor\***

<b>Trust</b>	University Hospitals Sussex NHS Foundation Trust (East) - formerly Brighton and Sussex University Hospitals NHS Trust
<b>Site</b>	Royal Sussex County Hospital
<b>Trainee Information System (TIS) Post Code</b> (and local post number if known)	KSS/RXH01/091/F1/001
<b>Placement details</b> (i.e. the specialty and sub-specialty)	Anaesthesia and perioperative care – emphasis on cardiac surgery
<b>Department</b>	Anaesthetics (Cardiac)
<b>Type of work to expect and learning opportunities</b>	<p>This post offers the trainee ample opportunities to learn airway management, haemodynamic monitoring, evaluation and management of postoperative and critically ill patients, and a variety of practical skills (peripheral and central venous cannulation, arterial cannulation and endotracheal intubation). The trainee will be able to learn some point of care ultrasound skills on the job. Most of the training will be supervised directly by Consultant Cardiac Anaesthetists. The unit receives a few medical students undertaking their elective attachment in May and June each year and the trainee will be working together with students occasionally.</p> <p>The trainee will be encouraged to participate in an audit project and present at journal club meetings. During the post, the trainee may spend time with senior anaesthetists in some non-cardiac surgery lists.</p>
<b>Where the placement is based</b>	Anaesthesia is the largest department in the Trust - over 60 Consultants and Staff grade or Associate Specialist anaesthetists and more than 40 trainees at various grades, including one FY2 and one FY1 trainee. The two 'arms' of the department with offices and administrative staff are at Princess Royal Hospital, Haywards Heath and Royal Sussex County Hospital, Brighton. Anaesthetic services are also provided at other sites: Sussex Orthopaedic Treatment Centre (Haywards Heath); Sussex Eye Hospital and Royal Alexandra Children's Hospital (Brighton); and Lewis Victoria Hospital (Lewes).
<b>Clinical supervisor(s) for the placement</b>	Dr Robert Kong – Consultant in Cardiac Anaesthesia and Intensive Care
<b>Main duties of the placement</b>	<p>The FY1 trainee in Anaesthesia will spend most of the placement working in the Cardiac (Surgery) Unit at the Royal Sussex County Hospital.</p> <p>Responsibilities of the post include day to day management of postoperative patients in the Cardiac</p>

	HDU, assisting senior anaesthetists.
<b>Typical working pattern in this placement</b> <i>(e.g. ward rounds, clinics, theatre sessions)</i>	<p>There is a regular Foundation teaching program. Each trainee is allocated to an educational supervisor who will guide trainees throughout their post, giving advice and support as necessary.</p> <p>Please note, this post may also include working as part of the weekend medical rota. You will be expected to do a maximum of 1 in 3 weekend shifts on the acute floor (working 08:00-17:00 or 12:00-21:00). Your work schedule will include these weekends and allows the appropriate weekend enhancements. Foundation doctors are given two days off in-lieu the week before or after these shifts. The work involved is either clerking in A&amp;E, clerking for the medical on-call team, or on the acute assessment ward/frailty unit. As well as providing our patients with the care they need at the weekend they are of great educational benefit as these shifts will involve looking after newly admitted patients (with appropriate supervision) and therefore keeping acute clinical skills up-to-date.</p>
<b>Local education provider (LEP)/ employer information</b>	<p>UHSussex (East), formerly known as Brighton &amp; Sussex University Hospitals, is based across two main sites:</p> <ul style="list-style-type: none"> <li>• Royal Sussex County Hospital, in Brighton</li> <li>• Princess Royal Hospital, in Haywards Heath</li> </ul> <p>The Brighton campus includes the Royal Alexandra Children's Hospital and the Sussex Eye Hospital.</p> <p>We provide district general hospital services to our local populations in and around the Brighton and Hove, Mid Sussex and the western part of East Sussex, and more specialised and tertiary services for patients across Sussex and the south east of England.</p> <p>Both hospitals provide many of the same acute services for their local populations. In addition, the Princess Royal is our centre for elective surgery and the Royal Sussex County Hospital is our centre for emergency and tertiary care. Our specialised and tertiary services include neurosciences, arterial vascular surgery, neonatal, paediatrics, cardiac, cancer, renal, infectious diseases and HIV medicine. We are also the major trauma centre for Sussex and the South East.</p> <p>We treat over three quarters of a million patients each year. Working as one hospital across two sites, and playing to the strengths of both, gives us the flexibility to develop services which meet the needs of our patients at different stages of their treatment and care.</p>

## Foundation Programme Individual Placement Descriptor\*

<b>Trust</b>	University Hospitals Sussex NHS Foundation Trust (East) - formerly Brighton and Sussex University Hospitals NHS Trust
<b>Site</b>	Royal Sussex County Hospital, Brighton – with shifts at Princess Royal Hospital, Haywards Heath
<b>Trainee Information System (TIS) Post Code</b> (and local post number if known)	KSS/RXH01/030/F1/001 KSS/RXH01/030/F1/002 KSS/RXH01/030/F1/003 KSS/RXH01/030/F1/005
<b>Placement details</b> (i.e. the specialty and sub-specialty)	Emergency Medicine
<b>Department</b>	Emergency Department, RSCH & PRH  <b>Please note – this post will include shifts at both the Brighton and Haywards Heath sites, including weekends and late shifts finishing at 9pm.</b>
<b>Type of work to expect and learning opportunities</b>	<p>The F1 doctor will work in the Clinical Decision Unit attached to the Emergency department. They will join the consultant for the ward round and complete any outstanding jobs from it. This also provides easy access to Consultant teaching and the ability to do WPBAs easily. They should be available if needed to support the smooth running of this ward area throughout their shift. After the ward round the F1 doctor will be free to come to the Majors area to assess new patients under the supervision of a Consultant or middle grade doctor. This allows them to see the breath of Emergency care from the front door to those admitted under the Emergency Consultants.</p> <p>The F1 doctor is expected to clerk patients and present all their patients to a middle grade or Consultant doctor before referral or discharge.</p>
<b>Where the placement is based</b>	The BSUH Emergency Departments see approximately 350 patients per day across two sites (RSCH and PRH). At the RSCH site, there is a resuscitation area, majors area, a minors, an Urgent Treatment Centre, and 14 bedded Observation Ward overseen by the Emergency Department Consultants. There are 28 Consultants, 20 middle grade doctors, 15 F2/ GPVTS doctors and 4 F1s.
<b>Clinical supervisor(s) for the placement</b>	One Emergency Medicine consultants will be the Clinical Supervisor for this post.
<b>Main duties of the placement</b>	Our F1s have some administrative duties to support the clinical governance of the ED. In addition the F1 on the early morning shift at RSCH site is expected to do discharge summaries for patients returning to the care of their GPs.

	<p>This post gives a unique opportunity to see a broad range of conditions and procedures, with a high degree of direct Consultant input.</p>
<p><b>Typical working pattern in this placement</b> (e.g. ward rounds, clinics, theatre sessions)</p>	<p>Shifts will be 8-17 or 12-21 clerking shifts. Consultant ward round will usually start between 08:30 and 09:00. Once the ward round is finished, there may be ward jobs to do including some discharges.</p> <p>There are specific clerking shifts timetabled into the rota. You are expected to present to the Emergency Consultant managing the department and will be assigned an area within the department.</p> <p>Teaching is on a Wednesday from 8-10. You are expected to also go to your Foundation teaching.</p>
<p><b>Local education provider (LEP)/ employer information</b></p>	<p>UHSussex (East), formerly known as Brighton &amp; Sussex University Hospitals, is based across two main sites:</p> <ul style="list-style-type: none"> <li>• Royal Sussex County Hospital, in Brighton</li> <li>• Princess Royal Hospital, in Haywards Heath</li> </ul> <p>The Brighton campus includes the Royal Alexandra Children's Hospital and the Sussex Eye Hospital. We provide district general hospital services to our local populations in and around the Brighton and Hove, Mid Sussex and the western part of East Sussex, and more specialised and tertiary services for patients across Sussex and the south east of England. Both hospitals provide many of the same acute services for their local populations. In addition, the Princess Royal is our centre for elective surgery and the Royal Sussex County Hospital is our centre for emergency and tertiary care. Our specialised and tertiary services include neurosciences, arterial vascular surgery, neonatal, paediatrics, cardiac, cancer, renal, infectious diseases and HIV medicine. We are also the major trauma centre for Sussex and the South East. We treat over three quarters of a million patients each year. Working as one hospital across two sites, and playing to the strengths of both, gives us the flexibility to develop services which meet the needs of our patients at different stages of their treatment and care.</p>

<b>Typical working pattern in this placement</b> (e.g. ward rounds, clinics, theatre sessions)	<p>Typical working pattern in this post includes daily ward work and will also include weekday nights and weekend work, and you will be part of the on-call rota.</p> <p>F1 teaching at PRH take place every Thursday lunchtime, and there is also a weekly Medicine meeting every Wednesday. There are opportunities for bedside teaching (as outlined above) and ad hoc teaching and skills sessions in the Euan Keat Education Centre, PRH.</p> <p>Please note the above may be subject to change, further details will be in your work schedule.</p>
<b>Local education provider (LEP)/ employer information</b>	<p>UHSussex (East), formerly known as Brighton &amp; Sussex University Hospitals, is based across two main sites:</p> <ul style="list-style-type: none"> <li>• Royal Sussex County Hospital, in Brighton</li> <li>• Princess Royal Hospital, in Haywards Heath</li> </ul> <p>The Brighton campus includes the Royal Alexandra Children's Hospital and the Sussex Eye Hospital. We provide district general hospital services to our local populations in and around the Brighton and Hove, Mid Sussex and the western part of East Sussex, and more specialised and tertiary services for patients across Sussex and the south east of England. Both hospitals provide many of the same acute services for their local populations. In addition, the Princess Royal is our centre for elective surgery and the Royal Sussex County Hospital is our centre for emergency and tertiary care. Our specialised and tertiary services include neurosciences, arterial vascular surgery, neonatal, paediatrics, cardiac, cancer, renal, infectious diseases and HIV medicine. We are also the major trauma centre for Sussex and the South East. We treat over three quarters of a million patients each year. Working as one hospital across two sites, and playing to the strengths of both, gives us the flexibility to develop services which meet the needs of our patients at different stages of their treatment and care.</p>

\*It is important to note that this description is a typical example of the placement and may be subject to change.

<b>Where the placement is based</b>	Royal Sussex County Hospital

<b>Clinical supervisor(s) for the placement</b>	A consultant in the department will be the Clinical Supervisor for this post.
<b>Main duties of the placement</b>	<p>Provide medical cover and support to inpatients and referrals, in conjunction with the other members of the team (IMT, SpR and consultant).</p> <p>The F1 will be directly supervised by a Specialist Registrar who will conduct a ward round each morning. The F1 post also involves care of Haematology patients including patients with lymphoma and leukaemia receiving chemotherapy with direct supervision of SHO and Specialist Registrar.</p> <p>F1 post holders are encouraged to attend out patient clinics in a supernumerary training capacity throughout their attachment</p> <p>This post will include out-of-hours and weekend hours as part of the wider Medicine team. Typical work involved during these shifts may include clerking in A&amp;E, clerking for the medical on-call team, or on the acute assessment ward/frailty unit. As well as providing our patients with the care they need at the weekend they are of great educational benefit as these shifts will involve looking after newly admitted patients (with appropriate supervision).</p>
<b>Typical working pattern in this placement</b> (e.g. ward rounds, clinics, theatre sessions)	<p>Routine working day is 8am – 5pm.</p> <p>Out of hours clerking shift will be based in the acute floor (ED/AMU)</p> <p>Shifts are managed on Health Rota, an online based rota that allow swaps, leave to be allocated in advance and with equity.</p> <p>Please note the above may be subject to change, further details will be in your work schedule.</p>
<b>Local education provider (LEP)/ employer information</b>	<p>UHSussex (East), formerly known as Brighton &amp; Sussex University Hospitals, is based across two main sites:</p> <ul style="list-style-type: none"> <li>• Royal Sussex County Hospital, in Brighton</li> <li>• Princess Royal Hospital, in Haywards Heath</li> </ul> <p>The Brighton campus includes the Royal Alexandra Children's Hospital and the Sussex Eye Hospital. We provide district general hospital services to our local populations in and around the Brighton and Hove, Mid Sussex and the western part of East Sussex, and more specialised and tertiary services for patients across Sussex and the south east of England. Both hospitals provide many of the same acute services for their local populations. In addition, the Princess Royal is our centre for elective surgery and</p>

	<p>the Royal Sussex County Hospital is our centre for emergency and tertiary care. Our specialised and tertiary services include neurosciences, arterial vascular surgery, neonatal, paediatrics, cardiac, cancer, renal, infectious diseases and HIV medicine. We are also the major trauma centre for Sussex and the South East.</p> <p>We treat over three quarters of a million patients each year. Working as one hospital across two sites, and playing to the strengths of both, gives us the flexibility to develop services which meet the needs of our patients at different stages of their treatment and care.</p>
