

The Curriculum team, as part of the CAST Programme (Curriculum and AKT Support in Training) have been working with some wonderful KSS trainees to deliver peer learning sets. All sessions have been recorded and can be found on the e-learning site.

In order to access the video library, please follow these steps:

Step 1: Register for an account (this must be using an NHS email address) at: <https://www.gptrainingeastssussex.co.uk/register/>

Step 2: Access the e-learning video library either through the above website's menu, or <https://www.gptrainingeastssussex.co.uk/courses/akt-curriculum-learning-sets/>

Step 3: To start, click 'Enrol now' on the right, then work your way through the topics below. Unlike our other courses, you can access the videos in any order. As this is being updated after each learning set session is held, course certificates are not available.

We hope that you find this to be a useful resource in preparation for the AKT examination. Please do not hesitate to contact KSS.GPS@hee.nhs.uk if you have any further queries.
