Specialty	Emergency Medicine – F1
Grade	F1
Trust	University Hospitals Sussex NHS Foundation Trust (East)
Site name and address (include trust name if different to employing trust)	Royal Sussex County Hospital, Eastern Road, Brighton BN2 5BE and the Princess Royal Hospital, Lewes Road, Haywards Heath RH16 4EX.
Type of work to expect and learning opportunities	As an F1 doctor in the Emergency department, you will see patients who present to the Emergency department either by ambulance or walk in. You will present those cases to Consultants and Middle grades providing the opportunity for WPBAs. You will see a wide range of cases which will give you a broad experience of all of Medicine and Surgery.
Main duties and further information about the placement	To see, examine, present, clerk and manage patients who present to the Emergency department with the support of the Emergency Consultant and/or Middle grade. This post gives a unique opportunity to see a broad range of conditions and procedures, with a high degree of direct Consultant input.
Clinical Supervisor(s) <i>This may be subject to change</i>	A Consultant from the department will be the Clinical Supervisor.
Typical working pattern in the placement. e.g. ward rounds, clinics, theatre	Please note that this post will include shifts at both the Brighton and Haywards Heath sites, including weekends and late shifts finishing at 9pm. Shifts will be 08:00 – 17:00 or 12-21:00 clerking shifts. Teaching is on a Tuesday from 14-16pm and alternates every other week with a SPEED session. You are expected to also go to your Foundation teaching.
For further information, please contact the Local Education Provider (LEP) administrative contact	Link to specific trust information page on KSS website will be included here- https://kss.hee.nhs.uk/kss-foundation/trust-information-pages/

****It is important to note that this description is a typical example of the placement and may be subject to change****

Specialty	General Internal Medicine – Acute – F1
Grade	F1
Trust	University Hospitals Sussex NHS Foundation Trust (East)
Site name and address (include trust name if different to employing trust)	Royal Sussex County Hospital, Eastern Road Brighton BN2 5BE.
Type of work to expect and learning opportunities	<p>Training and learning opportunities you can expect in this post are listed below. At your Induction meeting with your Clinical Supervisors, you should discuss your aims and objectives for this post and personalise your work schedule accordingly.</p> <ul style="list-style-type: none"> You will work as part the AMU team, which consists of 3 F1s, an F2, an ACCS doctor a CMT and an SpR, although because of the on-call commitment and leave it is rare that all are present at the same time. The actual work and times vary to ensure there is cover on the AMU from 08.00-21.00. During the AMU post you will attend the daily morning handover meeting and participate in the daily consultant ward rounds, which occur in the morning of all patients under the care of the AMU team. You will be responsible for creation of the up to date patients list, documenting the ward round in the patients notes, ensuring that investigations and specialty opinions are requested, chasing and acting on the investigation results and specialty opinion as well as ensuring patients, relatives and nurses are aware of the diagnosis and on-going plan, there will always be an AMU doctor until 21.00 to allow for jobs and work to be completed after the second consultant ward round. The post also has an on-call commitment during which includes responsible for clerking new patients and formulating a management plan which can be presented to the consultant on call. <p>There are many opportunities to learn procedures, LPs, ascitic taps and drains, pleural taps and drains as most patients seen are new patients who required investigations, but in addition the AMU also runs the Ambulatory care unit where the elective drains are done.</p> <ul style="list-style-type: none"> AMU runs the weekly ‘hot cases’ an informal discussion of interesting patients as well as the monthly mortality and morbidity meeting. Additional learning opportunities include the Foundation teaching (F1 every fortnight, F2 every fortnight) and the weekly Grand Round. <p>You will be encouraged and supported to do audits, service evaluation and service improvement projects.</p>
Main duties and further information about the placement	<p>As described above.</p> <p>This post will include out-of-hours and weekend hours as part of the wider Medicine team. Typical work involved during these shifts may include clerking in A&E, clerking for the medical on-call team, or on the acute assessment ward/frailty unit. As well as providing our patients with the care they need at the weekend they are of great educational benefit as these shifts will involve looking after newly admitted patients (with appropriate supervision).</p>

Clinical Supervisor(s) <i>This may be subject to change</i>	A Consultant in the department will be the Clinical Supervisor.
Typical working pattern in the placement. e.g ward rounds, clinics, theatre	<p>Typical working pattern in this post includes daily ward work and will also include weekday nights and weekend work, and you will be part of the on-call rota.</p> <p>Shifts are managed on Health Rota, an online based rota that allow swaps, leave to be allocated in advance and with equity.</p> <p>Please note the above may be subject to change, further details will be in your work schedule.</p>
For further information, please contact the Local Education Provider (LEP) administrative contact	Link to specific trust information page on KSS website will be included here- https://kss.hee.nhs.uk/kss-foundation/trust-information-pages/

****It is important to note that this description is a typical example of the placement and may be subject to change****

It is important to note that this description is a typical example of the placement and may be subject to change

Specialty	Gynaecology-Oncology – F1
Grade	F1
Trust	University Hospitals Sussex NHS Foundation Trust (East)
Site name and address (include trust name if different to employing)	Royal Sussex County Hospital – Eastern Road, Brighton BN2 5BE – post may also include work at other sites.
Type of work to expect and learning opportunities	<p>This post provides an excellent opportunity in a closely supervised setting to gain experience in the management of both emergency and elective gynaecological problems. Mainly post-op management of gynae-oncology patients.</p> <p>Opportunities for acute clerking of patients in gynaecology assessment unit and assisting in gynaecology theatres.</p> <p>Alternate weeks are spent doing ward work and in the other week some operating list assistance and the opportunity to attend teaching at the Breast Centre at Preston Park Brighton by Mr. Charles Zammit. This would therefore be an ideal post for those considering O&G as a career, but equally an important basic grounding in gynaecology for those considering primary care or a surgical specialty.</p>
Main duties and further information about the placement	<p>The gynaecology ward unit is situated on Level 11 of the tower block and consists of a 9-bed ward, a Gynae Assessment Unit and an Early Pregnancy Assessment Clinic. There is a dedicated Outpatients Department and Colposcopy Unit within the hospital. The Gynae Cancer Centre for Sussex is located at the Royal Sussex County Hospital and many of the elective inpatients on the ward are Gynae-Oncology patients. Gynae Oncology surgical patients are operated in the main theatre suite at RSCH and Gynaecological emergencies are also managed through the RSCH whilst elective benign.</p> <p>gynaecological patients tend to be operated on at PRH or Lewes (please note the during this rotation trainees will not go to PRH or Lewes).</p> <p>All F1 Doctors in hospital posts will generally be ward based during the 'normal' working day and expected to deliver the daily medical care of all the patients on their ward irrespective of specialty. All tasks covered by e portfolio core competencies.</p> <p>The overall educational objectives of the F1 year are to provide the trainee with the knowledge, skills, and attitudes to be able to:</p> <ul style="list-style-type: none"> • Take a history and examine a patient. • Identify and synthesize problems. • Prescribe safely. • Keep an accurate and relevant medical record. • Manage time and clinical priorities effectively. • Communicate effectively with patients, relatives, and colleagues. • Use evidence, guidelines, and audit to benefit patient care. • Act in a professional manner always • Cope with ethical and legal issues which occur during the management of patients with general medical problems. • Educate patients effectively <p>Become life-long learners and teachers ewes hospitals.</p>

Clinical Supervisor(s) <i>This may be subject to change</i>	Mr. Peter Larsen-Disney or other Consultants in the department.
Typical working pattern in the placement. e.g ward rounds, clinics, theatre	Alternate weeks are spent doing ward work and in the other week some operating list assistance. This post will include working as part of the weekend A&E rota – you will work 3 weekends in A&E per 4-month rotation. You will be given two days off in lieu the week before or after these shifts.
For further information, please contact the Local Education Provider (LEP) administrative	Link to specific trust information page on KSS website will be included here- https://kss.hee.nhs.uk/kss-foundation/trust-information-pages/

****It is important to note that this description is a typical example of the placement and may be subject to change****

Specialty	Paediatrics – F1
Grade	F1
Trust	University Hospitals Sussex NHS Foundation Trust (East)
Site name and address (include trust name if different to employing trust)	Royal Alex Children’s Hospital – at the Royal Sussex County Hospital Site, Eastern Road, Brighton BN2 5BE
Type of work to expect and learning opportunities	<p>The Royal Alexandra Children’s Hospital in Brighton provides a comprehensive training experience in general paediatrics, paediatric emergency medicine and some areas of subspecialty paediatrics. There are medical and surgical paediatric inpatient wards, medical and surgical day care units, oncology day care unit, high dependency unit and a dedicated children’s emergency department (CED). Foundation doctors will predominantly be based in the ward areas, but there are opportunities to work in CED and to observe out-patient clinics.</p> <p>We work alongside the paediatric surgical unit and the post-holder will be involved in the care of both medical and surgical patients.</p> <p>The paediatric junior rota allows flexibility and fulfils requirements for self-development time. Foundation doctors will be on-call in the ward areas with a registrar, with a consultant non-resident on call. There is a second on-call team in the CED, with a consultant resident in the hospital until at least 10pm, based in CED.</p> <p>The paediatric department receives consistently good feedback on its education programme. In addition to clinical teaching and supervision, there is an extensive paediatric departmental teaching programme which includes weekly simulation sessions.</p>
Main duties and further information about the placement	<p>Working as part of the medical in-patient ward team, including participating in ward rounds. Providing support for paediatric medical day care unit.</p> <p>Experience in CED (Children’s Emergency Department)</p>
Clinical Supervisor(s) <i>This may be subject to change</i>	A Paediatric Consultant will be assigned as the Clinical Supervisor.
Typical working pattern in the placement. e.g ward rounds, clinics, theatre	<p>Paediatric in-patient medical ward</p> <ul style="list-style-type: none"> -daily ward rounds Medical day care unit -daytime support and care of a wide range of patients attending for elective procedures Children’s Emergency Department (CED) -Reviewing patients under close senior supervision Paediatric out-patient clinics -observation, including allied health professionals and subspecialty clinics
For further information, please contact the Local Education Provider (LEP) administrative contact	Link to specific trust information page on KSS website will be included here- https://kss.hee.nhs.uk/kss-foundation/trust-information-pages/

****It is important to note that this description is a typical example of the placement and may be subject to change****

Specialty	Otolaryngology – RSCH – F1
Grade	F1
Trust	University Hospitals Sussex NHS Foundation Trust (East)
Site name and address (include trust name if different to employing trust)	Royal Sussex County Hospital – Eastern Road, Brighton BN2 5BE
Type of work to expect and learning opportunities	The post offers a wide range of experience in all aspects of ENT and Head and Neck Surgery. There are monthly audit/clinical governance meetings and weekly teaching on every Friday morning. There is protected time to attend the Friday morning teaching at RSCH and every attempt is made to allow attendance at all teaching/study sessions.
Main duties and further information about the placement	The post offers a wide range of experience in all aspects of ENT and Head and Neck Surgery.
Clinical Supervisor(s) <i>This may be subject to change</i>	A Consultant in the department will be the Clinical Supervisor.
Typical working pattern in the placement. e.g ward rounds, clinics, theatre	<p>There are monthly audit/clinical governance meetings and weekly teaching on every Friday morning. There is protected time to attend the Friday morning teaching at RSCH and every attempt is made to allow attendance at all teaching/study sessions.</p> <p>On call is on a fixed day of the week and annual leave is allocated on strict rota. Any requests for changing the fixed dates for leave will be looked at sympathetically but cannot be guaranteed.</p> <p>The post covers the ward management of General acute ENT patients and the head and neck major cancer surgery. This gives the trainee an excellent overall view of head and neck surgery as a multidisciplinary area. The trainee is encouraged to produce audit/research during this post and previous holders have used this as a stepping stone to a career in ENT. Please note the above may be subject to change, further details will be in your work schedule.</p>
For further information, please contact the Local Education Provider (LEP) administrative contact	Link to specific trust information page on KSS website will be included here- https://kss.hee.nhs.uk/kss-foundation/trust-information-pages/

****It is important to note that this description is a typical example of the placement and may be subject to change****

Specialty	Paediatric Surgery – F1
Grade	F1
Trust	University Hospitals Sussex NHS Foundation Trust (East)
Site name and address (include trust name if different to employing trust)	Royal Alexandra Children’s Hospital – on the site of the Royal Sussex County Hospital, Eastern Road, Brighton BN2 5BE.
Type of work to expect and learning opportunities	Both emergency admissions and planned operations. A wide range of surgery is performed covering gastro-intestinal, urology and general paediatric and neonatal surgery, including endoscopy and laparoscopy. Also, ENT, maxillo-facial, eye surgery and orthopaedics are undertaken in the hospital.
Main duties and further information about the placement	The Foundation Doctor will be expected to assist the Consultants in the pre- and post-operative care of children requiring day case and elective surgery. They will attend the handover and morning ward round when on duty and manage the ward tasks resulting from this. There will be opportunity to attend outpatients’ clinics and operating lists, with the consultant. In the Children’s Emergency Department (CED), the Foundation Doctor will be expected to see children referred to the surgical team, in conjunction with the appropriate middle grade. This will enable learning of the management of the sick surgical child.
Clinical Supervisor(s) <i>This may be subject to change</i>	A Consultant in the department will be the Clinical Supervisor.
Typical working pattern in the placement. e.g. ward rounds, clinics, theatre	See above. Every other week there is Trust F1 teaching which the foundation doctor will be able to attend.
For further information, please contact the Local Education Provider (LEP) administrative contact	Link to specific trust information page on KSS website will be included here- https://kss.hee.nhs.uk/kss-foundation/trust-information-pages/

****It is important to note that this description is a typical example of the placement and may be subject to change****
